Profile Summary

Front-end developer / Visual Designer experienced in HTML, CSS, JavaScript, and modern frameworks like React and Tailwind CSS. I used to build responsive web designs and modern UI development practices. I am proficient in converting Figma designs to pixel-accurate, mobile-first web interfaces and familiar with Git/GitHub and browser debugging tools. have a foundation in UI principles and components to clean code practices. Actively developing projects to strengthen real-world front-end problem-solving skills.

Skills

- **Coding Languages** : HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS , NEXT.js, Node.js
- **Tools** : Git, GitHub, VS Code, Figma, Chrome DevTools
- **Design** : Adobe Illustrator, UI/UX Design, Figma Prototyping
- **Soft skills** : Adaptability, Time management
- **Concepts** : UI/UX Principles, Component-Based Architecture, Cross-Browser Compatibility, Web Performance Basics
- **Languages Known** : English, Tamil, Urdu, Hindi, Arabic (basic)

Experience

UI / GRAPHIC DESIGNER | TEJAS GROUPS | Apr 2020 - Nov 2025

- Delivered graphic design work for digital and print while handling multiple operational tasks, maintaining consistent quality and meeting deadlines in a fast-paced environment.
- Coordinated with clients, vendors, and internal teams to gather requirements, manage revisions, and ensure accurate final deliverables.
- Managed file organization, design assets, and production-ready outputs, reducing errors and improving workflow efficiency.
- Started web technologies using Udemy (HTML, CSS, JS, React, Tailwind CSS) and implemented in real world projects.

AUTO CAD DESIGNER | MODINE THERMAL SYSTEMS | Aug 2019 - Mar 2020

- Developed precise 2D and 3D technical drawings for thermal system components, ensuring manufacturing accuracy and optimization through CAD modeling.
- Streamlined design-to-production workflows by developing standardized CAD components and technical documentation for complex mechanical assemblies.

QUALITY CHECK | WHEELS INDIA PVT LTD | Jul 2018 - Jul 2019

- Ensured precision and structural integrity of automobile wheels through rigorous quality inspections.
- Monitored production standards and maintained zero-defect goals within a high-volume manufacturing environment.
- Then the batch of finished wheels are sent for further operations.

Projects

- **E-Commerce App** | Figma, Next.JS, Firebase
- **Real Estate App** | Figma, HTML, CSS, JavaScript, React.js, Tailwind CSS
- **3D Car Showcase** | Figma, HTML, React.js, Tailwind CSS, Three.js

Education

Diploma in Mechanical Engineering | Sri Manakula Vinayagar Ploytechnic College | Puducherry

Apr 2015 - Apr 2018

- Secured 80%

Higher Secondary | Fatima Higher Secondary School | Puducherry

Mar - 2015

- 12th - 60%, 10th - 71%

Certification

- Ultimate web development course by codewithharry - **UDEMY**
